"Lab Connectivity Perfected"

Cost-effective Laboratory Management  
At your fingertips

**xLAB** is designed for the most demanding Moderately and Highly complex laboratories with support for as many instrument interfaces, EMR/EHR interfaces, Practice Management interfaces, Billing System interfaces and xLab Workstations (both remote and local) as the lab requires.

**xLAB Options:** Improve patient care, increase your profitability and expand your laboratory with one or more of the xLab Options.

▶ **Consumer Portal** - A Lab-Branded Web site to expand your testing to consumers in your community.

Many states allow consumers to order lab testing directly from their local laboratory. Why not take advantage of this opportunity to increase your revenue and better serve the community?

▶ **Web Portal** - a Lab-Branded Web site for nursing home clients, Rehab center clients, Physician clients and even Community hospital clients.

Ideal for bringing more business to your lab. Nursing homes in your community need lab testing? Have external Physician practices that could use your lab? Rehab center clients? Small community hospitals that send their testing out? Take advantage of this Lab-expanding opportunity!

▶ **Report Portal** - Results directly to the Patient.

Many times your physicians or clients want their patients to get their reports directly. Report Portal sends patient reports to the patient, securely, both by email and text message.

▶ **Toxicology** - Complete Comprehensive and Screens for Drug testing.

Want to do Pain Management or Rehab drug testing to increase revenue?

While xLab comes with the ability to do Drug screens. If you want full Pain Management or Rehab drug testing the Toxicology option is for you!

▶ **Pharmacogenetics** - Genetic testing typically requires a third party to "analyze" the data. Third-party vendors like PgxSoftware™, Translational™ Software, and others provide analysis of Genetic information to produce a comprehensive report for your patients and physicians.

▶ **Microbiology** - Complete Microbiology module for both automated and manual microbiology.

Tired of sending all your Micro out to a reference lab with them getting the lions share of the profit? Why not bring Micro In-House? Improve turnaround time and profitability!

▶ **xLab Remote** - For customer having remote or satellite lab facilities.

For when you have Satellite labs that do some testing at the Satellite lab and sending some testing to your main lab. A typical scenario is your Satellite lab does CBC's (quick turnaround of result to the physician) and send the chemistries to the main lab.

Ultimately, your Physicians get consolidated result reports for their patients for all testing!

---

## ***xLAB features include:***

- ▶ Faxing
  - ▶ User-definable Comprehensive Interpretive Reporting
  - ▶ User-definable Calculated Results (such as GFR)
  - ▶ User-definable Reflex testing
  - ▶ Choice of Report Formats for both sample and trend reporting
  - ▶ Full QC Control Management & Reports (including Alpha)
  - ▶ Test Exclusionary Rules
  - ▶ Test Priority
  - ▶ Turnaround Time Rules and violation tracking
  - ▶ Billing reports and Billing spreadsheets
  - ▶ A full line of Instrument, EMR/EHR, Billing and PM interfaces
  - ▶ CLIA, COLA, JACHO and HIPPA compliant
  - ▶ Email
  - ▶ Bar code Label Printing
  - ▶ User-definable Sample Labels
  - ▶ Extensive Test library
  - ▶ User-definable Order entry screen.
  - ▶ Comprehensive Management Reports
  - ▶ Age/Gender specific Reference Ranges (including Pediatric)
  - ▶ Critical Call System
  - ▶ Medical Necessity Rules
  - ▶ Answer at Order Entry questions
  - ▶ DOH reporting
  - ▶ One year support.
- 

## ***What kind of results can I produce?***

- ▶ ***Numeric*** - Standard numeric results like Glucose or WBC
  - ▶ ***Alpha*** - A "Text" result selected from a Pick-List and reported as text like "Trace", "Yellow", etc.
  - ▶ ***Calculated*** - A numeric result that is derived from other results, for example GFR
  - ▶ ***Text*** - Manually entered free text
  - ▶ ***PDF*** - The result in a PDF file
  - ▶ ***Drug*** - A numeric result with a Limit and Cut-off
  - ▶ ***Threshold*** - The result has a Cut-Off and is reported as Positive or Negative or, if desired, numeric
  - ▶ ***Link*** - The result is a Link to a Web Site URL. Typically used for Radiology
- 

## ***CONTACT AP-VISIONS TODAY!***

Regardless of the size of your lab or what features you need, AP-Visions has your solution! Contact AP-Visions or your Preferred distributor today for more information and to schedule a demonstration of any of the products AP-Visions has to offer.
